## **DETAILED ACTION**

**1.** Applicant's cooperation is requested in correcting any error of which applicant may become aware in the specification.

# **Preliminary Amendment**

2. Preliminary Amendment filed 04/05/2004, has been entered.

#### Information Disclosure Statement

3. The information disclosure statement submitted on 04/05/2004, has been considered by the examiner and made of record. See attached form PTO-1449.

#### **Drawings**

**4.** This application has been filed with formal drawings.

### Double Patenting

5. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151

U.S. 186 (1894); In re Ockert, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claim 1 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 6,741,777. This is a double patenting rejection.
